EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Perry J. Saidman (reg. no. 26,028) on April 1, 2004.

The application has been amended as follows:

In claim 24, line 5, "each" has been replaced with -- respectively --.

The following is an examiner's statement of reasons for allowance: In regard to independent claim 24, Partridge (U.S. Patent No. 1,729,961) and the rest of the prior art of record fails to show a transparent polyhedron including first and second recesses on said viewing surfaces and a backing including first and second flanges and first and second planar portions wherein the first flange is bent inwardly such that a first angle of less than 90 degrees is formed by the first flange and the first planar portion and the second flange is bent inwardly such that a second angle of less than 90 degrees is formed by the second flange and the second planar portion. In regard to independent claim 39, Partridge (U.S. Patent No. 1,729,961) and the rest of the prior art of record fails to show a polyhedron including first and second slots on said viewing surfaces and an opaque backing including first and second flanges and first, second, and third

planar portions wherein the first flange and second flanges form an acute angle with the first and second planar portions. In regard to independent claim 44, Partridge (U.S. Patent No. 1,729,961) and the rest of the prior art of record fails to show a transparent polyhedron including first and second display surfaces angularly offset and sharing a common corner and a backing including first and second flanges and first and second planar portions wherein the backing is bent between the first and second portions to form a corner which mates with the common corner of the polyhedron and the first flange is bent and contacts a portion of the first viewing surface and the second flange is bent and contacts a portion of the second viewing surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian K. Green whose telephone number is (703) 308-1011. The examiner can normally be reached on M-F 7am-3:30pm.
